Massachusetts Immigrant Collaborative

The Massachusetts Immigrant Collaborative is a statewide and diverse collaborative of 15 immigrant serving organizations working to ensure shared access to resources to support – with dignity and equity – immigrant communities that have been historically under-resourced. We do this in solidarity with the families, respecting their dignity and human rights, supporting their long-term economic mobility while seeking to address urgent needs such as cash and food assistance, immigration legal services and education, worker's rights and workforce readiness, and access to a broad range of services and opportunities that each partner organization provides.
